Here are 17 secrets Aceable employees will never tell you. We just read all your reviews from the App Store and Google Play. All of them. We even discussed select reviews at our weekly meetings as a way to motivate the team and learn what we can do best. We get a lot of calls from people who think Aceable is the driver's license office. It's not, but we'll help you find it. 3. In addition, the people who answer these phone calls are some of the nicest and most hard-working people we know. Be nice to them back. We get dizzy when you tweet or label us in an insta. We especially love your permission and license selfies because they make us feel like a proud mom/dad/robot. Also, lol when people troll us on social media. Only... No. Mmmmmk.Our office matches the course design. There's a lot of bluish and white, and more than one illustration of Ace, we spend a lot of time wondering what teenagers do and like and care about. Even though some of us were teenagers like five years ago. (A lot has changed since 2011, okay?) We know strangely specific information about state laws, especially those related to driving. For example, in North Carolina, mopeds are not entitled to a full lane, other cars can pass them into the same lane. Strange, isn't it? In addition, the official drink of almost every state is milk. 9. There are people in our office whose main job is to test the product to make sure it works perfectly for you. To do this, we have created about a million different accounts and some of us probably know the first chapter of each memory course. When you give us your opinion, respond to our survey or responding to our DMs really means the world. We absolutely love our customers. Ace's voice is a guy named ... ah, never mind, we're not going to spoil that. No, it's not like we really care that you learn safe driving skills and are responsible on the road. We need our baby Acelets to stay safe and sound!!! We're not obsessed with driving. Some of us walk or bike to work instead. Environmentally friendly for victory! We remember the names of some of our first students. Heart. 15. We love education, and not just driver education. It's not uncommon to find a team member who gives a presentation on a topic he's passionate about, such as improvisation, cybersecurity, or body language, to name a few. We'll probably play Pokémon Go more than you do. We think he's adorable when you say you'll miss Ace at the end of the course. Promise me he'll miss you too.
